

## Quality Policy

We at Symbiotec are committed to develop, manufacture, and distribute APIs (Active Pharmaceutical Ingredients) and Intermediates by establishing a quality culture which drives quality focused behavior in employees and ensures safety, efficacy, and reliability in our products.

- ❖ We are committed to achieve zero-defect and implement strict quality system to ensure that products manufactured are of consistent quality and adhere to cGxP in accordance with all applicable quality and regulatory standards and expectations of our customers to comply with their unmet needs.
- ❖ We ensure that quality is embedded at every stage of our operations, including procurement, manufacturing, and delivery.
- ❖ We ensure adherence to quality procedures and develop sustainable quality systems through effective training of employees.
- ❖ We intent to enhance high level of efficiency to attain operational excellence through continual innovation and quality compliance in-line with our quality management system and objectives by maintaining high level of accuracy, integrity and transparency in our practices and documentation.
- ❖ Our facilities ensure quality through continuous upgradation of technology, equipments and practices.
- ❖ We commit to promote risk-based approach for the continual improvement of our quality system, procedures, and processes through regular review & control by quality assurance system and by management.
